## Description

ELECTRIC BIKE !!!!!

This is a newly-developed, high-end, adaptable, READY TO RACE electric-powered mini-crosser aimed at both beginner and competitive junior riders. With zero emissions and sound pollution, the KTM SX-E 5 is at the leading-edge of competitive minicross and is a viable alternative to the petrol-powered 50cc engine, bringing with it an entirely new generation of competitive racing. The KTM SX-E 5 is fitted with a compact electric motor, powered by a strong power pack, delivering almost inaudible noise emissions. It also features high-quality components that make it significantly different from the many "toy-like" electric minicycles available on the market. This is a fully-fledged competition motorcycle with low noise emissions, making it more accessible to younger riders for use in areas where noise emissions are restricted.
